Change in Rent Burden Since 2010

Housing affordability pressure remained elevated across all reporting periods, with nearly half of renter households spending more than 30% of income on housing costs.

Housing Affordability Findings

Housing affordability pressure remained elevated across all ACS reporting periods in Richland County. Nearly half of renter households consistently spent more than 30% of income on housing costs, despite increases in median household income between 2010 and 2020.

Renters Above Affordability Threshold

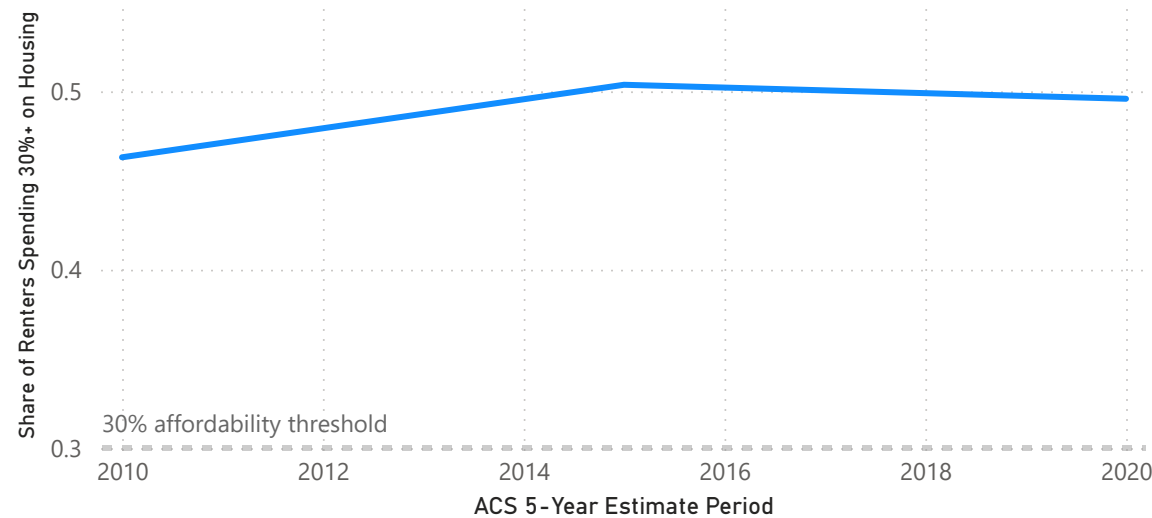

50.36%

Median Household Income

54K

Median Annual Rent

1250

Median rents increased across the reporting period while renter housing cost burden remained elevated. Nearly half of renter households consistently spent more than 30% of income on housing costs.

Although household income increased over time, housing affordability pressure persisted, suggesting rent growth and housing costs continued to strain renter households.
